

Retort Checks

RC 101/B - G

Retort-Checks indicator is used as a food processing indicator. The purple indicator ink turns green when exposed to steam pressure processing.

Performance Characteristics

The B-G indicators represent increased timings at a given temperature range at which the indicator will change color. Refer to the Retort-Checks Selection Chart (MK-035) for timing and temperature ranges.

Physical Characteristics

Dimensions: 89 mm x 48 mm

Color Change

Purple to green

Complete Color Change Time

@ 250°F/ 121°C Saturated Steam

RC 101/B	6 minutes
RC 101/C	15 minutes
RC 101/D	25 minutes
RC 101/E	35 minutes
RC 101/F	45 minutes
RC 101/G	60 minutes

Storage

The storage conditions are printed on the product packaging

Shelf Life

36 months from date of manufacture. The expiry date is printed on the product packaging

SteriTec Part No.	Packaging
RC 101/B, RC 101/C, RC 101/D, RC 101/E, RC 101/F, RC 101/G	20 boxes of 250 tests
